

Madrona Lofts

The Lofts at Madrona designed by Indigo Architects create an opportunity for urban living in downtown Bainbridge Island. They consist of 14 townhouses in 2 multifamily buildings. The 3-story energy-efficient urban style lofts feature long wide plank wood floors and blackened steel stairs with heavy fir treads. Top floor living with vaulted great room ceilings and private fully covered decks allow for treetop views. Garden patio's, garages, and elevator and solar ready these homes are beautifully designed and constructed. This is another Indigo Architecture/Clark Construction collaboration.

3-Story. 2 Bed + Office Loft

This 3-story energy efficient urban style loft with garage is elevator ready and full of character.

Featuring long, wide plank wood floors finished with square head nails, blackened steel stairs with heavy fir treads, vaulted great room ceilings, private fully covered deck or garden patio.

This home has 2 bedrooms each with en suite baths on the middle floor and an additional space on the ground floor with a separate garden entrance perfect for guests, home office or intergenerational living. The treetop great room belies the fact that you are just steps away from the amenities of Winslow township.
