

Located in the beautiful Lemolo area of Poulsbo, this Modern Farmhouse-meets-Beach House was designed for a vibrant family to live and the design transformed to also accommodate learning & working from home.

This property is a relaxing stroll from Historic Downtown Poulsbo and has captivating views of the sunset over the Olympic Mountains and front row seats to the annual July 3rd fireworks.

Plenty of sandy beach for fun in the sun as the owners elected to remove an old rock bulkhead and restore the beach to a natural shoreline as part of the Shore Friendly Kitsap program.

The main house is a spacious 2606 square feet with an art studio above the garage that adds another 615 square feet totaling 3,221 of living space with an additional 615 square feet of garage.
